2. **DWELLING COST, QUALITY AND SIZE:** No single-family attached or detached dwelling until shall be permitted on any such lot or lots which shall give to the improved lot or lots on which the said single-family attached or detached dwelling unit is constructed an appraised valuation of less than One Hundred Twenty Thousand and

No/100 (\$120,000.00) Dollars; such valuation to be based upon cost levels prevailing at the date these covenants are recorded; it being the intention and purpose of this covenant to provide that all dwellings shall be of quality and workmanship substantially the same or better than that which can be produced on the date these covenants are recorded for the minimum value herein stated for the minimum permitted dwelling size. Slab construction is not permitted.

No single-story residence or dwelling unit shall be constructed which shall have a heated area living space of less than 1500 square feet. No two-story residence or dwelling unit shall be constructed which shall have heated area living space of less than 1500 square feet of which a minimum of 800 square feet shall be for the first floor of said two-story dwelling. In the computation of floor space, furnace room and exterior storage areas, garage and porches shall not be counted. No residence may be constructed without a garage. Any plan for construction of a detached garage must have the prior approval of the Developer, as set out in paragraph 21 of these restrictive covenants.

3. **BUILDING LOCATION:** The building line of any dwelling house or the buildings appurtenant thereto shall not be less than 35 feet from the lot line which the dwelling house fronts. Interior lot line and side yard set-back requirements shall be as provided in the City of Jacksonville and/or Onslow County Subdivision Regulations governing residential developments. In the event that the regulatory boards for the City of Jacksonville and/or Onslow County Commissioners at a later time adopt a "zero lot line" set back for development then that ordinance shall apply to this development. Where a garage or other permitted accessory building is located within 30 feet of the rear property line, then there shall be a five feet side yard requirement for the rear 30 feet of the lot. A rear yard set-back requirement of 35 feet shall be maintained for those lots abutting other properties outside this subdivision.

For the purpose of these covenants, eaves and steps shall not be considered as a part of a building; provided, however, that this shall not be construed to permit any portion of a building to encroach upon another lot. Open fire escapes, outside stairways, the ordinary projections of chimneys and flues, swimming pools, flag poles, decorative fountains and other similar items are not subject to the building lines so long as they do not obstruct light and ventilation necessary for the structure on the adjoining lot. The following covenants are intended to ensure ongoing compliance with State Stormwater Management Permit Number 001114, as issued by the Division of Water Quality under NCAC 2H.1000.

All runoff from the built-upon areas on the lot must drain into the permitted system. This may be accomplished through providing roof drain gutters which drain to the street, grading the lot to drain toward the street, or grading perimeter swales and directing them into the pond or street. Lots that will naturally drain into the system are not required to provide these measures.

No fence shall be built within the easement for utilities as set forth in Paragraph 5(a) of these covenants.
